

# QuikRuler III™

*The Affordable Measuring Module  
for Architects, Construction Estimators,  
Engineers & Surveyors*

QuikRuler III is an exciting tool that quickly and accurately automates blueprint takeoff and drawing measurement processes. QuikRuler III is perfect for construction estimators, architects, engineers, surveyors, and other professionals who require fast, accurate measurements from drawings.

QuikRuler III can be used with either a GTCO CalComp Roll-Up III™, SuperL VI™ or DrawingBoard VI™ digitizer and it comes with everything you need to get started—measuring menu, LCD display with a sophisticated, yet easy-to-use built-in measuring program and integrated USB connector for easy plug-n-play use.

QuikRuler III is proven to deliver faster, more accurate takeoffs and measurements, boosting performance up to 3 times! More bids means more jobs...greater accuracy means larger profits!

QuikRuler III includes all functions necessary to measure lengths, as well as irregular areas in any scale or unit of measurement. For example, to measure an area, simply select AREA from the menu then trace or touch points along the perimeter of the area with the pointing device. The resulting measurement will appear (in English or Metric units) on the LCD display. QuikRuler III also performs standard calculator functions and can count items on blueprints or drawings with ease.

The Roll-Up III, SuperL VI and DrawingBoard VI digitizers that are available with QuikRuler III are compatible with most estimating software, so your investment is protected if you upgrade to the higher performance of a computerized estimating system.

## FEATURES

### **Versatile**

- Works with Roll-Up III, SuperL VI, or DrawingBoard VI series digitizers with intergrated QuickRuler III support
- No computer required!

### **Easy to Use**

- Display and menu in English, French, and Spanish
- Integrated USB to send data to your PC, no drivers required
- Works alone or with a PC
- Input numerical data into any spreadsheet application, including Lotus 1-2-3® and Microsoft Excel®
- Single cable connects the QuikRuler III to the Roll-Up III SuperL VI, or DrawingBoard VI making setup very easy.

### **Standard Functions**

- Measuring functions include area, length segment, length continuous, count, perimeter, units, scale, auto scale, count scale
- Calculator functions include add, subtract, divide, multiply
- Units of measure include inches, feet, yards, miles, millimeters, centimeters, meters, kilometers, no units
- Works at any scale

### **Durable and Dependable**

- Easy to read screen
- Made of durable, tough materials
- Backed by a two-year limited warranty and free technical support

# QuikRuler III™

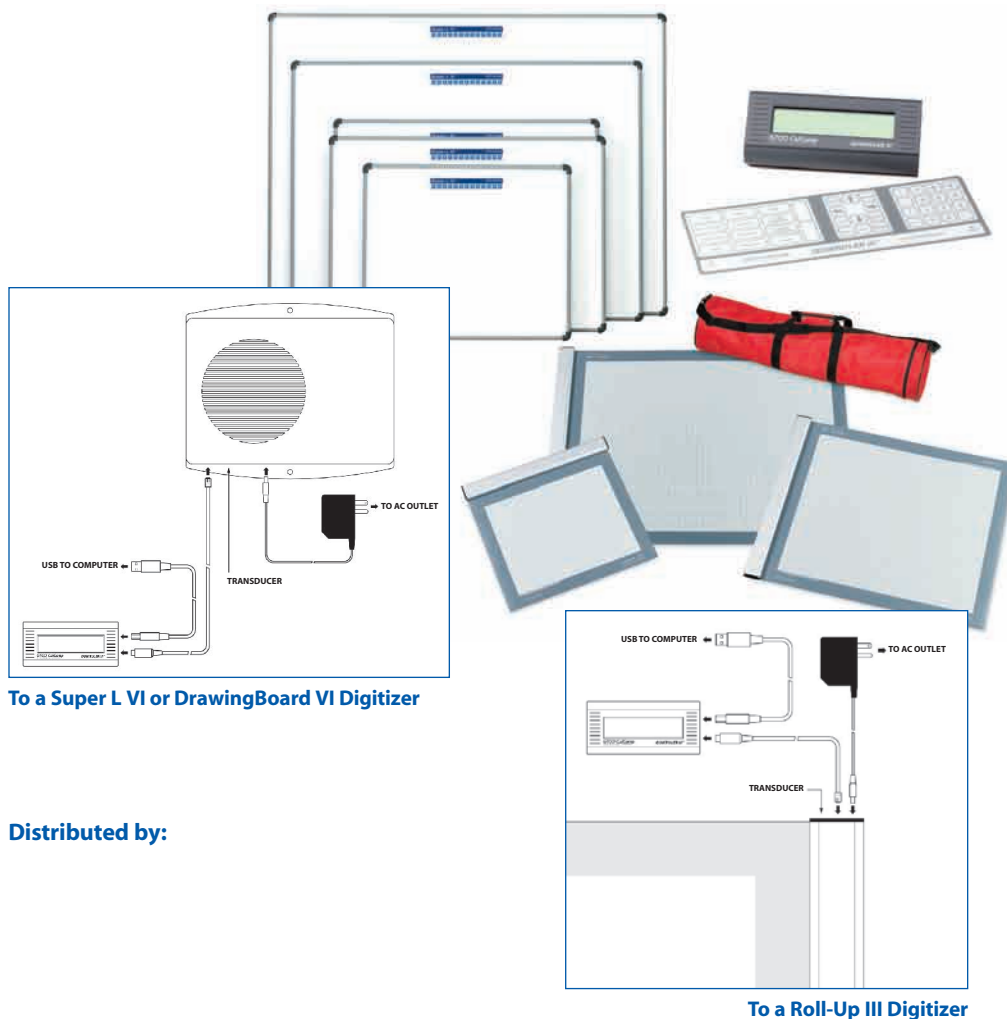

## MEASURING MODULE

<b>Platform Support</b>	Windows 98, 98SE, ME, 2000, XP, Vista, Mac OSX
<b>Hardware Interface</b>	Integrated USB, QuikRuler III Legacy available for RS-232
<b>Power Requirements</b>	9 Vdc @ 0.5A / Powered by a RollUp III, SuperL VI or DrawingBoard VI
<b>Operating Temperature</b>	50 to 104°F/10 to 40°C
<b>Storage Temperature</b>	-22 to +158°F/-30 to +70°C
<b>Weight</b>	175 g/6 oz
<b>Size (L x W x H)</b>	5.6 x 2.6 x 2 in/142 x 66 x 51 mm
<b>Humidity Range</b>	0 to 90%, noncondensing
<b>Warranty</b>	Two-year limited U.S. warranty, free technical support

### Included With Your Purchase

- LCD display featuring 16 characters by 2 lines with English, French and Spanish
- Menu cards in English, French and Spanish
- Printed User Manual in English, French and Spanish
- Tablet interface cable for Roll-Up III, Super L VI, and Drawing Board VI

## EASY CONNECTIVITY

To a Super L VI or DrawingBoard VI Digitizer

To a Roll-Up III Digitizer
